Students living on campus have the option to reside in the Automotive Technology – Living Learning Community (LLC). Here, students have the opportunity to join a co-ed community of diverse student residents with similar interests. The LLC provides students the opportunity to interact with faculty, participate in programs that bridge the gap between coursework and friendship, enjoy a strong feeling of connection to the campus community, and have a shared Living/Learning experience with other students who have similar interests and goals.

Online housing contracts are open for all students admitted to SIU. Students may select a room in the Automotive LLC when their room selection period begins. University Housing even helps you in selecting a roommate. The online roommate finder offers a convenient way to match yourself with students that have similar likes, habits, and passions.

Our LLC is located on “East Campus” which offers suite style rooms where two bedrooms, each with their own sink, are separated by a bathroom. Laundry facilities are located within the building as well as several lounge areas for relaxing, studying, and group events.

On East Campus, students have access to ample nearby parking, quick assess to the Student Recreation Center, Student Center, and Morris Library. Numerous outdoor activity areas and cooking grills surround the area and the Saluki Express bus service also has a nearby stop for transportation around campus, town, and to the Transportation Education Center.

The Automotive Technology Program and the Automotive Technology registered student organizations conduct various events with students in the building throughout the school year. We even have a training room with tools and components to help the students continue their learning.

The LLC helps build a mentoring partnership between students currently learning a subject and those who have already mastered it. At SIU, our learning never stops.

Student dining allows for various daily meal options. The menus are designed to provide a varied and nutritionally balanced choice of foods at each meal. Students can always find something to fit their mood, as the variety of entrees, side dishes, and desserts include:

- Deli Bars
- Pasta Bars
- Soup and Salad Bars
- Cereal Bars
- Home-style cooking
- Vegetarian Meals
- Low Fat Meals
- Soft Serve Yogurt
